For the first semester 2023/2024 ended 30 September 2023, the Piquadro Group reported revenues of **85.9 million Euro** with a **7.1% increase** compared to the 80.2 million Euro reported in first semester 2022/2023 ended September 30, 2022, including the effect of exchange rates **(+8.1% at constant exchange rates)**.

The table below reports the breakdown of consolidated revenues from sales by brand, expressed in thousands of Euro, for the semester ended September, 30, 2023 and compared to the semester ended September, 30, 2022:

¹ With the introduction of the accounting standard IFRS 16, starting from April 1st, 2019, a new accounting treatment of leases is introduced, which generates a significant effect on EBITDA, EBIT, net invested capital, net financial position, and cash flow generated from operational activity. For this reason, in this press release the “adjusted” balances of the amounts are also reported to make the figures for September 30th, 2023, comparable with those of previous periods.

The reopening of the Asian market, for the first semester 2023/2024, ended 30 September 2023, has recorded, instead, an increase in sales on Chinese of approximately 38%, including the effect of exchange rates (+53% at constant exchange rates) although, in absolute terms, these values are not yet so significant compared to Lancel consolidated sales.

The results of the first half of the year were undoubtedly positive” states Marco Palmieri, President and CEO of the Piquadro Group. “We recorded significant turnover increases on Piquadro and The Bridge while Lancel remained stable, although sales were strongly affected by the situation on the domestic market, in which the Maison generates over 90% of its revenues. Profitability performances were excellent with an adjusted EBITDA which marked +118% at Group level and an adjusted EBIT at +236%. The constantly and decisively improving net financial position completes a positive picture despite the period of general geopolitical instability.”

Outlook 2023/2024

The excellent performance recorded in the first half of fiscal year 2023/2024, both in terms of sales revenue and, above all, profitability, confirm the Group's ability to meet expectations and reassure the Management of the validity of the growth paths undertaken despite a volatile economic scenario. In this context, the Group's Management believes that it can keep the revenue growth dynamics in line with what was recorded in the first half of the year and achieve higher levels of profitability than those registered in the year ended March 31, 2023.
